Summary

I'm a front-end developer with a year of experience using various tools and technologies to create SEO-optimized, high-performance, visually appealing and mobile-friendly websites. Following best practices to provide a great user experience.

Skills

Language :: HTML --//-- CSS --//-- JavaScript --//-- TypeScript

Tools :: Package Managers (NPM & Yarn) , Git & GitHub , Modern CSS (Styled Components) ,

CSS Framework (Bootstrap , TailwindCss), familiarity with build tools (Vite , Webpack & Parcel) ,

Framework and Libraries (React.js & Next.js) , AJAX & JSON

Experience

■ **Animo-time ::**

Animo-time is an anime streaming website built using Next.js , React.js , Typescript, Tailwindcss, and Styled-components. The website makes it a great place for anime lovers by showing episodes and details about every anime you can think of thanks to multiple free and public APIs (JikanAPI , gogoAnime, and Anilist). The site scales well on mobile devices.
